Summary

I'm a graphic designer working in visual communication, social media content, posters, brochures, catalogues, print materials, and digital assets. I design with Adobe Photoshop, Illustrator, and Figma, focusing on aesthetics and function that align with each brand's visual language. I pay close attention to visual hierarchy, typography, layout, and color to deliver outputs that work across both digital and print.

Professional Experience

02/2024 – 08/2024

Bursa, Türkiye

Graphic Designer, Yenişehir Belediyesi

- Designed digital and print visuals for the municipality's announcements, events, and promotional campaigns.
- Worked on print materials across various formats including billboards, banners, posters, brochures, and catalogues.
- Created social media posts, announcements, and campaign visuals aligned with the institution's corporate identity.
- Produced clear and visually strong outputs through deliberate use of color, typography, composition, and layout.
- Delivered files in appropriate dimensions, formats, and structures for both digital publishing and print production.

2021 – 2023

İstanbul, Türkiye

Graphic Designer, TradeFive

- Worked on website design, e-commerce product visuals, and digital promotional materials.
- Supported product page preparation including visual editing, content placement, and publish-ready asset delivery.
- Contributed to product listing and keyword optimization efforts to improve visibility on e-commerce platforms.
- Designed digital outputs including banners, category visuals, campaign graphics, and social media content.
- Used Photoshop, Illustrator, and Figma to produce visuals suited for web and e-commerce workflows.
